## REASONS FOR ALLOWANCE

Claims 12-23 are allowed. The following is the examiner's statement of reasons for allowance. Applicant's arguments received 8/13/2008 are persuasive. The prior art does not disclose or suggest the following independent claim 12 limitations: "**a second-conductive-type first current input MISFET having a drain connected to the first current distribution MISFET; and a plurality of current supply sections each including second-conductive-type current source MISFETs constituting a current mirror circuit together with the first current input MISFET, switches which are connected to the current source MISFETs and turn ON or OFF a current flowing in the current source MISFETs in accordance with display data, and an output terminal which is connected to the switches and outputs a current in accordance with the display data to a display panel, the current driving device being provided on a semiconductor chip, wherein a plurality of units of the first current distribution MISFET and the first current input MISFET are provided for the semiconductor chip, and wherein a bias line connected to a gate electrode of the first MISFET and gate electrodes of the first current distribution MISFETs and shared by the gate electrodes is further provided**" in combination with the remaining claim elements as set forth in claim 12.

The prior art made of record in the attached PTO-892 is considered to be pertinent to the submitted application.

**Koyama [US 6777885]** discloses a drive circuit for a display device that comprises numerous switches that utilize an organic layer, in conjunction with a reference current source and current control means. Koyama does not disclose or

suggest the use of MISFETs to perform the current control/driving circuit, nor a reference current output terminal provided on a region of a semiconductor chip located at a distance of 200 micrometers or less from a current transmission MISFET.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "comments on statement of reasons for allowance."
